

Developer	System	Ease of Learning	Material/Plant Library	Graphics	Customization	3D Capability	Upgrade Available?	
iScape SCORE: 16/20	iScape Hldng	iTunes Only	Moderate (3/5) The app comes with a number of helpful tutorials, walkthroughs, and in-app suggestions for learning.	Good (4/5) It has a good variety of specific plants, along with some information about them	Great (5/5) The three-dimensional design elements are well-detailed. The app also allows you to overlay on top of a picture.	Good (4/5) It has a wide variety of components that can meet many needs.	Yes	Yes
Home Outside SCORE: 10/20	H.O. Inc.	Google Play / iTunes	Moderate (3/5) The program has helpful pop-ups and in-app tutorials that can walk you through the design process	Poor (1/5) There are no specific plant species, only graphic trees/plants.	Good (4/5) The app has nice plan renderings of various design components, but no three-dimensional components	Fair (2/5) With a little effort, you can create very personalized designs.	No	Yes
Home Design 3d SCORE: 5/20	Anuman	Google Play / iTunes	Poor (1/5) The app is not intuitive and there are no pop-ups or other tutorials easily available to help a new designer learn the program.	Poor (1/5) It has little to no specific plants unless you upgrade. Most of the useable functions are only available through upgrading	Fair (2/5) Three dimensional components look reasonable	Poor (1/5) No real customization unless you upgrade to paid version.	Yes	Yes
PROLandscape Home SCORE: 5/20	Drafix	Google Play / iTunes	Fair (2/5) The software is fairly intuitive and has guides that provide some help with questions for new users	Fair (2/5) The free plant library is pretty simple, but links to their paid library which is extensive.	Good (4/5) Nice perspective/three-dimensional overlays on top of pictures	Poor (1/5) Just drag and drop, no real customization for the free version.	Yes	Yes
Sketchup Viewer SCORE: 5/20	Trimble	Google Play	Fair (2/5) The app is really just a viewer of existing landscapes or spaces that were created using the full Sketchup version on a computer	Poor (1/5) No plants on app - all depends on original model	Fair (2/5) Once again, the viewer only provides a preview of the model without the ability to edit. So the graphic quality is variable.	Poor (1/5) No customization offered	Yes	No You will need to move directly to the desktop version
